

Welwyn Hatfield School Games Partnership Update.

82% of school are registered on the school games website.

7 schools achieved the Silver School Games Mark

11 schools achieved the Bronze School Games Mark

We have a number of school striving for gold which is reflected in the participation number in our level 2 competitions.

This year I have seen each competition double in entry at primary level.

Leadership

We have another successful year with the Young Ambassador programme with 1 platinum, 6 gold and 14 silver. We have also branched out to the primary school with over 100 bronze ambassadors and health champions in the primary trained which are linked with the Change for Life program.

We have trained leadership academies within the secondary schools with over 150 young leaders within it. These leaders over the past two terms have assisted with events.

Change for life

We have 4 secondary schools with a Change for Life club within them with some of them being run by the students.

Primary Change for Life

Most primary schools have a Change for Life bag and should be running a club for their least active students. The partnership has also trained some Health leaders within the primaries to help support with this.

Competition

Level 1 – increased number of intra competitions within the primary's which is increasing the number of A B C teams at Level 2

Level 2 – Competitions running as they have been in the past but numbers of entries are increasing.
