

COMMUNITY FUNDRAISER

Dear Club Organiser,

The Community Fund Raiser (CFR) opportunity provided by the Utility Warehouse is a unique scheme that can enable your club to raise money while at the same time saving your members and their family's on average 25% on their utility bills every month. Savings can also be made on everyday purchases through their unique online shopping service, Find Me The Cheapest and their "CashBack" purchase schemes including food, and even more when shopping online.

The Utility Warehouse is managed by Telecom Plus PLC, a major UK company listed on the London Stock Exchange. With a turnover in excess of £418 million, they already supply over 400,000 homes and small businesses across the UK with great value and outstanding service on a wide range of essential utilities: gas, electricity, home phone, mobile and broadband. Many of which are regularly recommended by [Which?](#)

To raise money as a Utility Warehouse CFR, all you have to do is sign your club up as a Community Fundraiser via WHSPAA and then when your application is approved inform your club members about the fundraising campaign you have set up, and ask them to support you if they want to by calling the freephone number or by reviewing and signing up online through your free Utility Warehouse CFR website.

If your members then decide to make use of the services as provided by the Utility Warehouse having used your unique campaign number or your free website to enrol through the Utility Warehouse will pay your club up to five percent of their monthly bill every month for as long as they use the services.

The best and easiest way for you and your club members to sign up is through the Freephone number 0800 131 3000 as that way you and they can get all your questions answered. The most important one being how much will I save?

There is absolutely no hard sell in this process just an explanation of the benefits to the caller and the Utility Warehouse deal with the transfer so you don't have to do any more administration.

In fact your club can become its own customer so you can enquire first before telling your members to ensure for yourself that it works.

As most of the Utility Warehouse services have no minimum term contract, you and your supporters can try them out risk free.

As a new CFR, your only commitment is a one-off £25 registration fee, which is fully refundable when 12 of your supporters sign up for one of the main services in your first 90 days.

Hundreds of community groups, sports clubs, housing associations and other social enterprise projects are already using this partnership to save their supporters money and to raise funds.

It's a win – win situation for all parties The Utility Warehouse get new customers, your supporters save money and your club gets additional residual income for very little effort and WHSPAA also get additional income that it can use to promote and support sport in Welwyn and Hatfield.

If your club are interested in becoming a CFR and you would like to hold a separate discussion with me about becoming a CFR please contact me on Tel 07518 383994 or by Email: d63grant@hotmail.com , and I'll be happy to answer your questions, give you more information and show you how to join the scheme.

David Grant
Vice-chairman WHSPAA
